

Amec Foster Wheeler

Independent Assurance of Amec Foster Wheeler's Corporate Responsibility Reporting 2015/16

ISAE 3000 Statement

17 February 2017

Independent Assurance of Amec Foster Wheeler's responsibility reporting 2015/16: ISAE 3000 statement

The nature of the assurance

This is a report by Corporate Citizenship for Amec Foster Wheeler.

Corporate Citizenship has undertaken **limited** assurance of Amec Foster Wheeler's Greenhouse Gas (GHG) emissions (scope 1, 2 and 3) against the WRI / WBCSD Greenhouse Gas Protocol Corporate Standard, for the reporting year of 2015/16.

GHG Scope 1	1,148,118 tCO ₂ e
GHG Scope 2	49,799 tCO ₂ e
GHG Scope 3	53,335 tCO ₂ e

The assurance covers the period from 1st of October 2015 – 30th September 2016.

Amec Foster Wheeler is entirely and solely responsible for the production and publication of the data assured, Corporate Citizenship for its assurance.

GHG emission data relates to Amec Foster Wheeler Group performance in the UK and international operations where Amec Foster Wheeler maintains operational control.

The GHG emissions data has been prepared using DEFRA Environmental Reporting Guidelines and the WRI / WBCSD Greenhouse Gas Protocol Corporate Standard. The amendment to the GHG Protocol Scope 2 Guidance has not been followed in this instance.

GHG quantification is subject to inherent uncertainty due to factors such as incomplete scientific knowledge about the global warming potential of different GHGs and uncertainty around the models and parameters used in estimating GHG emissions.

This engagement was performed in accordance with the International Standard on Assurance Engagement (ISAE) 3000 (Assurance Engagements other than Audits or Reviews of Historical Financial Information) and the relevant subject-matter specific ISAE for GHG data (ISAE 3410, Assurance Engagements on Greenhouse Gas Statements).

Corporate Citizenship has complied with the requirements for independence, professional ethics and quality control as stipulated by ISAE 3000.

Assurance work performed

The assurance work was commissioned in September 2016 and was completed on February 2017. Detailed records were kept of meetings, assurance visits and correspondence relating to the assurance. The assurance process was undertaken by a multidisciplinary team of three, including a Consultant, a Project Researcher and a Director acting in a supervisory capacity.

The assurance engagement was undertaken to a **limited level**, and involved the following activities:

1. Detailed interviews with employees responsible for delivery of Amec Foster Wheeler environmental performance. This was in order to understand the overall process of environmental management and to discuss key trends and the process for collecting, validating and consolidating the data;
2. Checks on a sample basis of consolidated data to underlying records to check for consistency and accuracy of reporting;
3. Reviews of the systems used to record and analyse environmental performance data in order to assess robustness.

Our experience and independence

Corporate Citizenship is a specialist management consultancy, advising corporations that seek to improve their economic, social and environmental performance around the world and is a leading assessor of corporate responsibility and sustainability reports. This is the 5th year that Corporate Citizenship has provided independent assurance services in relation to Amec Foster Wheeler corporate responsibility reporting. We have provided no other services to Amec Foster Wheeler during the period under review.

Conclusion

Based on the scope of work and assurance procedures performed, nothing has come to our attention that causes us to believe that the GHG emissions data described above is not prepared, in all material respects, in accordance with the DEFRA Environmental Reporting Guidelines.
